Vaccination Disclosure

As a patient safety and health care personnel safety initiative, certain programs or departments require vaccinations for students and clinical instructors. Medical facilities contracting with Hawkeye Community College that require all healthcare personnel to be vaccinated may not grant access to clinical experiences for unvaccinated individuals due to patient health and safety. By signing below:

a. I acknowledge that I may have a limited ability to complete my clinical experiences which may financially impact me, materially affect or prevent my ability to fulfill the requirements of my course of student, and/or materially affect or prevent me from obtaining a desired licensure or credential.
b. I am required to comply with all requirements requested by the various clinical sites in my clinical rotations, subject only to reasonable accommodations requested and granted consistent with applicable law.

_____Yes _____No (If yes, when was the TB test? _____)

Do you have documentation of a 2-Step TB Skin Test being done once in your lifetime that can be/has been submitted to CastleBranch?

_____Yes _____No (If yes, when was the 2-Step TB Test? _____)

Have you ever had a **POSITIVE** Tuberculosis Test of any type? _____Yes _____No (If yes, when? _____)

Did you have a chest x-ray? _____Yes _____No (If yes, where? _____)

Did you take medication? _____Yes _____No

Provider Comments: _____

Section 3: Tuberculosis Testing Requirements

- **Documentation of a 2-Step TST test done once in your lifetime.**
  - 2-Step TST Test - Two separate TST tests read within 48-72 hours after each test. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read.
- **If the TST test result is + (positive**) then a QuantiFERON Gold blood test and/or chest X-ray will be required. After the initial 2-step testing, an annual TB test will be required**.**
- **An annual TB Test is required if > than 12 months since initial 2-Step TST Screen**.

If health conditions are present, do they create a limitation in the ability to provide health care? _____ Yes _____ No

Explain: _____

Does your examination reveal any active illness that would be a hazard to others? _____ Yes _____ No

Explain: _____

Historical immunization records have been reviewed with the patient by the provider.

Based on today's exam and the disclosed health history, this student does not have any health condition that would create a hazard to self and others or limit their ability to provide healthcare. In addition, this person is capable of performing the physical requirements of his/her program which can include bending, stooping, pushing, and lifting without weight restriction.
